Another technique is to test out prices by creating a variety of duplicate gross sales pages with different costs on each page. Make sure that your gross sales copy is strictly the same on each web

page, and consists of your promoting-handle sentence. Then work out for each web page the conversion ratio between guests to your web site and sales of your book. This can let you know what your optimum price is.

Ultimately, if you've written a guide that solves a drawback or presents a brand new technique, your book will bring in both site visitors and profits.
