An effective technique for figuring out a value is to ship out a survey to your current customers. If these prospects have already bought an ebook from you, ask for his or her opinion when it comes to price. Do that by making a sales page for the new e book, but do not include a price on that page. Instead, add numerous hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other strategy is to check out prices by creating a number of duplicate sales pages with totally different prices on each page. Be sure that your gross sales copy is exactly the similar on each web page, and includes your promoting-handle sentence. Then determine for every web page the conversion ratio between guests to your web site and sales of your book. It will let you know what your optimum price is.

In the end, when you've written a book that solves a downside or presents a new technique, your guide will herald both site visitors and profits.
