Then remember to use that sentence in each piece of sales and promotional material, and each time anybody asks you about your ebook.

Apart from promoting your books assiduously online, there are several other strategies that can enable you to sell extra books.

One is to provide one thing away free of charge along with your book, such as a precious bonus item. Or bundle several ebooks underneath one value, which lowers the worth for each book in the event that they had been bought separately.

An efficient technique for figuring out a price is to ship out a survey to your current customers. If these prospects have already bought an book from you, ask for their opinion in terms of price. Do

that by making a gross sales page for the new ebook, however do not embody a value on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out prices by creating a variety of duplicate gross sales pages with completely different costs on each page. Be certain that your sales copy is precisely the identical on each page, and includes your selling-deal with sentence. Then work out for every web page the conversion ratio between visitors to your site and sales of your book. It will let you know what your optimum price is.

In the end, for those who've written a book that solves a problem or presents a new technique, your e-book will usher in each traffic and profits.
